Objective:
Guess the word before your man gets hanged

How to play:
One player thinks of a word and the other players try to guess it by suggesting the letters.

The word to guess is represented by a row of dashes, giving the number of letters. Example: _ _ _ _ _ (apple, five words)

If the guessing player suggests a letter which occurs in the word, the other player writes it in all its correct positions.

If the suggested letter or number does not occur in the word, the other player draws one element of the hanged man stick figure as a tally mark.
